Hi Nicole,

Please see the note from Karen Tarnow below regarding the status of the ODOT work referenced in our review of the LWG source control table.

Subject: ODOT update

Matt –

I met with ODOT today and have somewhat of an update on when they will be submitting info on their “facilities” in Portland Harbor. Previously, I thought we might be seeing a map(s) of their facilities by the end of the year but that’s not going to happen. I expect to be getting a rough timeline from them next week, but am thinking it will likely be at least another 2-3 months before they are ready to submit this info.

Their maps will include delineated drainage basins for the 3 ODOT-owned outfalls, and maps of all the other known conveyances in the Harbor watershed (these discharge to the river through non-ODOT outfalls).

If the LWG has specific questions regarding ODOT facilities in the Harbor area, they should contact Geoff Crook in Salem at 503-986-3425.
